

CIN Legal Data Services Releases Free Private-Labeled Application Pages For Attorneys Using Its Bankruptcy Due Diligence Services...

In an effort to assist attorneys with extending their brand recognition and providing greater technical efficiencies for their clients, CIN Legal Data Services now provides customers with private-labeled web application pages that represent the brands of the firms.

Clients of firms using CIN Legal Data Services' due diligence products are now provided with direct web-application access via CIN Online™, the company's web-based transaction platform. This access allows clients to review information delivered by CIN Legal Data Services to customer firms for use in the preparation of their bankruptcy filings, as well as to access EOUST-Approved Credit Counseling & Debtor Education courses provided by CIN Legal Data Services' partners.

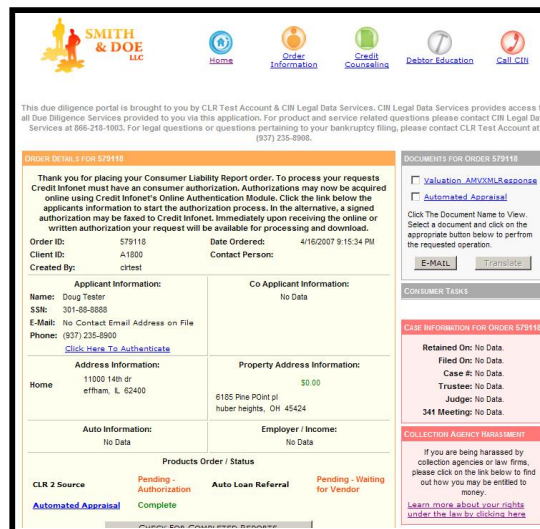

Private-Labeled Login Pages:

An Attorney Requesting the Set-up of Private Labeled Application Access Pages Receives a Customized Login Page for Clients. Customized Login Pages Maintain the Firm's Contact Information, As Well As the Firm's Logo. Login Pages Can Be Embedded in the Firm's Corporate Web Site for Seamless Client Access.

Customized Client Application:

Upon Logging In, The Firm's Clients Are Presented with a Private-Labeled Version of CIN Legal Data Services' Consumer Access Application. The Firm's Logo is Presented, Along With Contact Information and Information on Products Ordered. Furthermore, Customized Modules Can Be Created to Allow the Firm to Present Messages on a Variety of Subjects Such as Creditor Harassment and Other Rights Under the Law.
